Various business development areas

様々な事業展開シーン

which DAINEN is participating in

ダイネングループは練炭・豆炭の家庭燃料分野からスタートし、幾多の困難に直面しながらも激動の時代に確かな足跡を残してきました。その舞台は他方向へと拡大し、実績と信頼の輪を広げています。そして、新世紀でのさらなる飛躍をめざし、一歩ずつ着実に前進し続けています。

The Dainen Group started its activities in the fuel business of briquetting and bean coal for households in Japan. With tough local as well as international competition, Dainen has prevailed to sustain its position as a reputable supplier. As our business activities have expanded, we have gained our customers trust mainly due to Dainen's ability in producing positive results. Furthermore, we pay much attention to the global economic trends, which enables us to continue to look forward in the future and contribute in doing business with our current and potential business partners one step at a time.
